~~SECRET~~

~~CONFIDENTIAL~~

The most important accomplishment in the motion picture production program was the completion of a one-hour film on "Dead Drops". This is the fifth picture in the Clandestine Communications Series. The final script for a Security film is nearing completion and production will be started within a few weeks. Research and preliminary scripting has continued on "The Intelligence Process" to be produced in cooperation with the Offices of the DD/I. A fifteen minute film on the Suggestion Awards Program is now being produced for the Management Staff. Research has been started to develop material for a film to be used in support of the Audio Surveillance Management Course.
